

Doing your best to protect students from abuse

Recognizing & Responding to Children at Risk

Suspected Child Abuse & Neglect Education for School Nurses in PA

If you suspect that a child is being abused, do you know what to do?

Recognizing and Responding to Children at Risk explores the legal and clinical aspects of mandated reporting that are specific to **school nurses** in Pennsylvania.

Conducted by a physician and local Children & Youth worker, this **three-hour presentation** is approved by the Department of Education, the Department of State, the Department of Health, and the Department of Human Services.

Learning Objectives:

- Identify the role of child protection
 - Understand categories of child abuse in the law
 - Recognize potential risks/indicators of child abuse/neglect
 - Describe role of mandated reporter
 - Explain the referral process and follow up
 - Identify prevention resources
- *Child Abuse Office kit for each participant*
 - *Act 31 approved (health care license renewal)*
 - *Act 48 approved (certified school nurses)*
 - *Act 58 approved (registered nurses)*
 - *Act 126 approved (school employees)*
 - *Continuing Education Credits for those eligible*
